Think about the activity that you have just completed. What kind of people do you think are involved in building real bridges? List as many jobs as you can think of:

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Choose one of the jobs that you have thought of and make a list of the skills needed in this role, why are each of these skills important:

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Can you think of any other jobs that involve the same skills?

________________________________________________________________________
________________________________________________________________________

Do you think you have any of these skills? If so, which ones?
