

# Evidence knowledge and creativity; optimising safety and personalisation in maternity care

## Schedule

### Monday, 24 April, 2023

	The Grange Room	Carriages 3 workshops	Yewbarrow Suite	Winstar Suite	Woodlands - parallel sessions	Woodlands - posters
<b>8.45 - 9.00am</b>	Welcome and Introduction to the Welcome and Introduction to the International Labour and Birth Research Conference 2023					
<b>9.00 - 9.30am</b>	Results from East Kent review					
<b>9.30 - 10.00am</b>	RCM ReBirth Project					
<b>10.00 - 10.30am</b>	Break					
<b>10.30 - 10.50am</b>	Effective clinical leaders: Where to find them? The development of Consultant Midwives in the UK: Findings of a national survey	QMNC 1: Physiology of spontaneous labour and birth	How do women with a higher weight (Body Mass Index $\geq 30$ kg/m <sup>2</sup> ) experience weight stigma in maternity care? Findings from a meta-ethnography	Antenatal Cardiotocography in Primary Midwife-led Care: Maternal and Perinatal Outcomes and Serious Adverse Events Among Low-Risk Pregnant Women. A Prospective Observational Cohort Study	Health literacy for informed choices in childbirth: a randomised controlled study through a digital app	Midwifery at its core, A Quality Improvement Project. Interdependent Education for the Future. Midwife The Implementation of a Collaborative Midwifery Led Care Workshop

## Monday, 24 April, 2023

	The Grange Room	Carriages 3 workshops	Yewbarrow Suite	Winstor Suite	Woodlands - parallel sessions	Woodlands - posters
<b>10.50 - 11.10am</b>	Key dimensions of women and their partners' experiences of childbirth: A systematic review of reviews of qualitative studies	(continued)	Preserving Midwifery-Led Intrapartum Care: Holistic Assessment of Metabolic Health in Obesity	Reliability and agreement in interpreting intrapartum foetal heart rate monitoring: a systematic review and meta-analysis	The words that midwives use with women during labour and birth	Potential for improvement in Norwegian labour care
<b>11.10 - 11.30am</b>	The ASSET model: What midwives need to practice personalised, physiological birth care		Maternal and neonatal outcomes associated with breech presentation in community birth settings in the United States	At the expense of continuous presence': Midwives experience of central fetal monitoring technologies in a teaching hospital labour unit	Impolite Birth: Provider's perspectives on the use of voice during labor and birth	'Normal birth' differences in understanding and use of terminology related to childbirth by Polish maternity staff
<b>11.30 - 11.50am</b>	Strengthening the Implementation and Operationalisation of 'Open Disclosure' with Women and Families After Unexpected Harm in NHS Maternity Care		Reviewing birth experience following a high-risk pregnancy: A feasibility study of midwifery counselling intervention	'Impact of institutional settings on the model of midwifery care quality and equity	The influences of facilitators and barriers on the implementation of a physiological approach: A mixed methods study in two obstetric settings	Women's expectations and experiences with breastfeeding mobile apps: a qualitative content analysis
<b>11.50am - 12 noon</b>		(continued)				

## Monday, 24 April, 2023

	The Grange Room	Carriages 3 workshops	Yewbarrow Suite	Winsters Suite	Woodlands - parallel sessions	Woodlands - posters
<b>12 noon - 12.50pm</b>	Lunch Break					
<b>12.50 - 1.20pm</b>	Posters					
<b>1.20 - 1.30pm</b>	Chairs introductions					
<b>1.30 - 2.00pm</b>	'Safety II', organisational psychology, human factors, and resilient health care					Dysfunctional Labor Maneuvers. Using position, mobility, and soft tissue mobilization to create functional biomechanics and facilitate cardinal movements
<b>2.00 - 2.20pm</b>	Introducing the CHERISH Study: the co-development of a holistic intervention to improve experience and outcomes of childbirth	Time to Decide: When does Latent Phase Labour Begin and End?	Practice variation in induction of labour in the Netherlands: The VALID project	A quasi-experimental study to assess the effectiveness of non-traditional birthing positions on labour outcome during the second stage of labour among second gravida mother in a government maternity hospital, Anantnag, Kashmir	Using women's voices for quality improvement of Dutch maternity care	A Framework for Teaching Cultural Competence in an Undergraduate Midwifery Programme
<b>2.20 - 2.40pm</b>	How do UK midwives practice intermittent auscultation? Results of a national survey of practice carried out as part of the Listen2Baby study		Induction of labour in the UK: Experience of and impact on women, birth partners and staff	The Choreography of Care - how considering midwifery as a dance practice can enhance care.	Exploring the variations in Organization of Integrated Maternity Care; a Scoping Review	Listening to Women: Operationalizing the Quality Maternal and Newborn Care Framework

## Monday, 24 April, 2023

	The Grange Room	Carriages 3 workshops	Yewbarrow Suite	Winsters Suite	Woodlands - parallel sessions	Woodlands - posters
<b>2.40 - 3.00pm</b>	Understanding concepts of normal/physiological labour and birth - evidence from a thematic analysis of the views of student midwives across the globe	(continued)	(continued)	Maternal and paternal shoe size in nulliparous women as predictors of length of labour and birth outcome	Access to alternative birth models: What women teach us about translating policy into practice	Midwifery training during COVID-19 among student midwives in Hong Kong
<b>3.00 - 3.20pm</b>	Normal/Physiologic Labor and Birth State of the Science: A Systematic Literature Review			Normal labour is not normal: Assessing the analysis of labour duration in original studies	Validation of the Quality Maternal and Newborn Care Framework index (QMNCfi) - user version: an international survey	Recruiting the future workforce- what do midwives want?
<b>3.20 - 3.30pm</b>						
<b>3.30 - 4.00pm</b>	Break					
<b>4.00 - 4.20pm</b>	Protocolised Caring and Dehumanised Care in Pregnancy and Birth: A Grounded Theory Study	Early labour progress: what do we know and how can we help?	The nine stages of instinctive behaviour for premature and full term infants	The first Midwife-led unit in Spain: first 3 years of experience	The subjective transition from pregnancy to postpartum: women's perception of alcohol consumption and alcohol risk	The RETHINK Study: A study to determine if pregnant women who pain catastrophise are more likely to attend hospital during the latent phase of labour
<b>4.20 - 4.40pm</b>	Features associated with women's experiences of good quality care in maternity units: An organisational ethnography		The International Skin to Skin Clinical Guidelines Project	Exploring the birth environment of Canada's first Alongside Midwifery Unit	Choices in Childbirth: co-designing a digital resource grounded in equity and birth justice to foster informed decision-making, individualized care planning and strong support systems	The importance of pain histories for latent phase labour

Keynote
  Oral presentations
  Workshop
  Symposium
  Pre-recorded presentations
  Posters

## Monday, 24 April, 2023

	The Grange Room	Carriages 3 workshops	Yewbarrow Suite	Winster Suite	Woodlands - parallel sessions	Woodlands - posters
<b>4.40 - 5.00pm</b>	The RESPCCT Study: Examining equity, safety, and justice in experiences of perinatal services across Canada	(continued)	Caesarean Section and Skin-to-Skin Contact - Normal essential care in a complex birthing environment	Maternal and neonatal outcomes at Canada's first alongside midwifery unit: a cohort study using a difference in differences analysis	Co-designing respectful maternity care in a slum area: methodological considerations from an international multidisciplinary research in Nairobi	Primiparous women's coping strategies and care needs in managing early labour
<b>5.00 - 6.00pm</b>	MyMicrobiome GmbH: The influence of the microbiome on pregnancy, baby and infant health					

## Tuesday, 25 April, 2023

	The Grange Room	Carriages 3 workshops	Yewbarrow Suite	Winstar Suite	Woodlands - parallel sessions	Woodlands - posters
<b>8.50 - 9.00am</b>	Chairs Introductions					
<b>9.00 - 9.30am</b>	The EU QualiDec project and implementation science					
<b>9.30 - 10.00am</b>	Body mapping: a new research methodology					
<b>10.00 - 10.30am</b>	Break					
<b>10.30 - 10.50am</b>	Personalising maternity care: are there benefits to combining Continuity of Care models with Group Antenatal Care?	QMNC 2: models of maternity care	A phenomenological study: "How are UK home birth midwives supported in autonomous decision making when caring for women with additional needs?"	Water immersion for labour and birth: Where are we now and where next?	How do midwives portray birth on Instagram? A content analysis of posts from the USA, UK, New Zealand and Australia -	Women's Experiences with Antenatal Cardiotocography in Primary Midwife-led Care
<b>10.50 - 11.10am</b>	Utilising a midwifery model of care to provide sustainable maternity services in rural South Australia: A health research evaluation		The New-Born Neighbour hood: Co-creating new holistic health pathways with group antenatal care and existing community initiatives		Exploring the uses of virtues in woman-centred care: A quest, synthesis and reflection	A jump into the deep end - Women's strategies on the way to VBAC in Poland
<b>11.10 - 11.30am</b>	The process of developing midwifery skills post-certification in free-standing birth centres		The cost of planned home birth compared to giving birth in hospital and determining factors - a Norwegian cost minimization analysis		Midwives and the 'ideal' birth partner: findings from an ethnographic doctoral study exploring midwife-father communication during childbirth	The influence of the attending midwife on the occurrence of episiotomy: a retrospective cohort study

Keynote
  Oral presentations
  Workshop
  Symposium
  Pre-recorded presentations
  Posters

## Tuesday, 25 April, 2023

	The Grange Room	Carriages 3 workshops	Yewbarrow Suite	Winster Suite	Woodlands - parallel sessions	Woodlands - posters
<b>11.30 - 11.50am</b>	Drama group	(continued)				Involving women and childbearing people in Canadian midwifery research governance: a systematic scoping review
<b>11.50am - 12 noon</b>						
<b>12 noon - 12.50pm</b>	Lunch Break					
<b>12.50 - 1.20pm</b>	Posters					
<b>1.20 - 1.30pm</b>	Chairs Introductions					
<b>1.30 - 2.00pm</b>	ICI 12 steps for motherbaby family friendly: evidence to date					
<b>2.00 - 2.30pm</b>	Amazing Grace: Birthing the dead					
<b>2.30 - 3.00pm</b>	Break					
<b>3.00 - 3.20pm</b>	Biomechanics of pregnancy, labour and birth	Translating evidence and knowledge through a creative workshop to safely transition new graduate midwives into midwifery continuity of care models	(Non-)disclosure of lifetime sexual violence in maternity care	Research procedure acceptability through women during pregnancy and postpartum: a pilot study	Establishing a Community of Midwifery Practice: All-Ireland Midwifery Network	Transition from midwifery care to Early Prevention Network services in Germany - a cross-sectional survey
<b>3.20 - 3.40pm</b>			Sharing the results of an FOI about the provision of maternity services for survivors of sexual violence and abuse across the UK	Automating inequity in the implementation of a race-adjusted clinical algorithm: the case of the Vaginal Birth After Cesarean (VBAC) Calculator	Dissemination and impact: policy makers and the media	Combining the Tupperware and Centering based group antenatal care to implement preconception care: does it work?

## Tuesday, 25 April, 2023

	The Grange Room	Carriages 3 workshops	Yewbarrow Suite	Winstor Suite	Woodlands - parallel sessions	Woodlands - posters
<b>3.40 - 4.00pm</b>	(continued)	(continued)	Supporting pregnant women who have suffered previous trauma: findings from interviews with women with lived experience of trauma, healthcare professionals, and voluntary sector experts	Women's experiences of the second stage of labour when attended by one or two midwives - secondary outcomes of the Oneplus trial - a randomized controlled trial	(continued)	An exploration of influencing factors on women's decisions to not have more children
<b>4.00 - 4.20pm</b>	Risk of stillbirth after a previous caesarean delivery: A Swedish nationwide cohort study		Safety: a multi-dimensional women's perspective that makes sense in the face of adversity	Primary midwives' experiences of collegial midwifery assistance with the purpose of preventing severe perineal trauma: Data from the Oneplus Trial		Acknowledging women's right to choose where to give birth - A qualitative study of midwives' perceptions of the needs for midwifery services during home births in Norway
<b>4.20 - 4.30pm</b>						
<b>4.30 - 5.30pm</b>	Reflection on the Conference Series title - issues and implications					

## Wednesday, 26 April, 2023

	The Grange Room	Carriages 3 workshops	Yewbarrow Suite	Winstor Suite	Woodlands - parallel sessions	Woodlands - posters
<b>9.00 - 9.10am</b>	Chairs Introductions					
<b>9.10 - 9.40am</b>	Implementing the WHO Labour Care Guide					
<b>9.40 - 10.10am</b>	Personalised care planning: the need to listen to all women					
<b>10.10 - 10.30am</b>	Break					
<b>10.30 - 10.50am</b>	Relational midwifery care: the continued relevance of the Albany Practice model	Towards a greater global understanding of women's empowerment in the perinatal period	"We Treat Everyone the Same": Maternity Nurses' Varying Perceptions on What Helps or Hinders Their Ability to Provide Quality Care to Women from Historically Marginalized Populations	Migrant women's experience of midwifery care during birthing in Iceland: A longitudinal qualitative study	Protecting human rights is the pathway to safe and personalised care	The Birthing data project: making interventions in labour and birth visible in the Brazilian health information system
<b>10.50 - 11.10am</b>	Who Makes the Decisions about Pain Relief During Labour, and How?		"It's not like they're just going to ignore you because of your skin colour". Maternity care experiences of ethnic minority women living in urban North West England: An Appreciative Inquiry	How the absence of trauma informed maternity care is negatively affecting asylum seeking and refugee women and the midwives who care for them. An exploration of current perinatal mental health screening practices and their influence on women's and midwives' wellbeing		Women's birth experiences and factors influencing them: findings from a cross-sectional survey from Karnataka India

Keynote
  Oral presentations
  Workshop
  Symposium
  Pre-recorded presentations
