

Seminar and Audience Discussion

## **Mental Health in the Workplace: Challenging the Conventional Wisdom.**

Speakers:

Dr Ian Ashman (Reader in Work and Organisations) and Dr Alison Collins (Reader in Leadership and Management) from Decent Work and Productivity Research Centre, Manchester Metropolitan University

In this interactive session, Dr Ashman and Dr Collins will address:

- The current public policy agenda around the management of mental health in the workplace and review research evidence.
- With particular emphasis on the role of HR profession and line managers, we will explore and challenge the conventional wisdom surrounding the way mental health is understood and confronted, in the employment context.
- A number of reservations can be raised and we will argue that the existing discourse around the management of mental health at work requires reframing.
