FORUM ON SCIENCE AND TECHNOLOGY IN CHINA
Publication started in Sept. 1985 bimonthly No.4 2011 Sum 180

Analysis of the Development and Needs of Chinese Innovation Base
--- based on the Investigate of State Key Laboratories and
National Engineering Research Center ......................... Liu Yan, Cheng Guangyu, Duan Xiaohua(5)
Optimization of Beijing Science and Technology Resources Allocation ... Wu Fengqing, Sheng Xiao, He Jian(11)
Establishing Science and Technology Volunteer
The Impact of Real Right Law on the Science & Technology
Resources Sharing Legislation .................................. Yu Zhaoobo, Wang Xiaoshuni(20)
The Relationship between National Intellectual Capital and National Innovation Capability
--- based on the 20 Years’ Panel Data of China ............... Chen Wu, He Qingfeng, Wang Xuejun(25)
The Interaction Mechanisms of Different Service Innovation Dimensions .................... Liu Shunzhong(32)
Steel Companies’ Strategic Orientation and Industry Development Mode .................... Wu Lihua, Yan Yan(39)
Carbon Emission Reduction of Manufacturing Rely on Technical Progress .................... Sun Ning(44)
Three-dimensional Space Model of Supply Chain in Cluster of Large-scale Complex
Products Manufacturing Industry ................................... Yang Jin, Wang Juanru(49)
The Causal Association Mechanism between Technological Learning Channel and
Shanghai R&D Industry .......................................... Zhang Jianwei, Du Debin, Zhang, Zhanren(56)
Present Situations, Issues, and Countermeasures of Intellectual Property
Rights Management in Innovative Enterprises .......................... Di Xiaoyan, Zhang Jiejun(62)
Value Appraisal System of Core Enterprise in Industrial Chain ...................... Cheng Linlei, Wang Zhe(67)
Cognitive Differences of Technology Innovation of High-tech
Enterprises in Zhejiang Province .................................. Yan Yan(74)
The Factors Affecting the Technological Innovation of High-tech Enterprises ..... Hu Yidong, Zhong Weijun(80)
Competitive Intelligence Problems of Offshore Service
Outsourcing Enterprises in Beijing ................................ Chen Feng, Zhao Xiaoyuan, Zheng Yanning(86)
The Calculation and Forecast of the Contribution Rate of Scientific and
Technological Progress in Tibet .................................. Zhu Fan, Yu Chengjun, Dong Guanpeng(91)
The Effect of Environmental Regulation on Technological Progress
--- Dynamic Econometric Analysis of Shandong Province.......................... Han Feng, Hu Xiaoying(97)
Technology Forecast based on the Combining of Delphi Survey
and Technology Roadmap ......................................... Wang Wei(103)
Empirical Estimation of Environmental Kuznets Curve of
Carbon Dioxide Emissions in China ................................ Liu Huajun, Yan Qingyue, Sun Yueyao(108)
The Relationship of Generic Competition Strategy and the Performance ... Zheng Bingyun, Chen Qi, Li Sui(114)
Market Competition of Communications Network Services in the 3G Era ................. Guo Shuiwen(121)
Review on Individual Innovation Performance Evaluation
about Enterprises’ R&D Personnel ................................... Si Jiangwei, Xu Xiaofeng(128)
Potential Impact of CURETs And Its Applicability in China ............................ Bai Zhenzhong, Wang Hongling(135)
Dynamic Panel GMM Analysis of Economic Growth Convergence in China .......... Chen Fang, Long Zhihe(140)
Developing Tendency of Energy Policies of UK’s Coalition
Policy Suggestion for China-India Traditional Medicine
The Imperfection and Developmental Tendency of
Overseas Leadership Theory ........................................ Jiang Zhao(156)
