

# Restoring Advanced Settings for Google Chrome

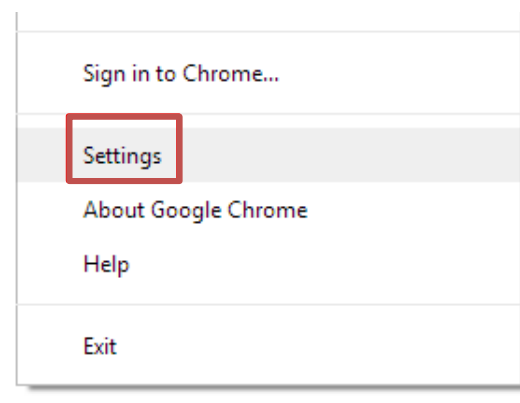

Restoring advanced settings can help with many browser related issues such as:

- Trouble with **Remote Access** such as unable to download attachments
- Using the **Outlook Web App**
- Problems using **Blackboard** such as downloading course resources
- To **Restore advanced settings** within **Google Chrome** use the following settings:

1. Select **Settings** icon

2. Select **Settings**

3. Select **Show advanced settings...**

## Default browser

Make Google Chrome my default browser

Google Chrome is not currently your default browser
