

E-mail setup - Blackberry

These basic instructions will help you set-up to receive emails on Blackberry. Please note that this device is not supported by LIS.

1. Select the search icon on the home screen of the Blackberry – search **Email**
2. Select the **Email Setup Application**
3. Select **Other**
4. Type in your user name and password and select **Continue**
5. If entered correctly it will say you have set it up successfully and you will receive emails in 20 minutes
